SRI P. A. PAWASHE.—From the answer it seems that out of 213 Marathi Primary Schools, only 86 are having school buildings: and out of 17 Urdu Primary Schools, only 7 are having buildings of their own So, may I know the reason why Government has neglected construction of school buildings in Khanapur Taluk?

†SRI S. M. YAHYA —Government has not neglected; in fact, the concept of education is such that the local people and also the local bodies should evince more interest and they also should support the cause of education. Government would do whatever is possible in this respect. I do understand that whatever we spend, it is not a substantial amount; but it is all due to various factors that budgetary provision has been fixed. Anyhow if more money is given, we will certainly consider.

SRI P. A. PAWASHE.—The people of Khanapur are prepared to give their contribution. Whether taking into consideration the backwardness of this Taluk, Government as a special case will see that school buildings in almost all the villages are constructed as early as possible?

SRI S. M YAHYA.—As far as the aided schools are concerned, it is the responsibility of the management and the local people; as far as our schools are concerned, there are local people who give their buildings without rent. There are instances where the rent is fixed and the Department will give. Whatever help is possible, we would like to help the people of Khanapur.

Demolition of Buildings Constructed on Highways etc.,

(*b*) whether the steps for buildings of Centre lines and preparation of maps under Sections 7 and 8 of the Karnataka Highways Act, 1964 and the rules thereunder have been taken;

(*c*) the actions taken against the persons who have built buildings in contravention of Section 9 of the Highways Act, 1964;
